EDUCATION

Santa Clara University   *Expected Graduation: June 2022*
B.S. in Computer Science & Mathematics
Minor in Innovation and Entrepreneurship

PROJECTS

Sonias Snack Bar

· Recognized an existing problem of long lines at my high school's snack bar, not allowing time for students to get snacks in between class.
· Developed an application using Xcode to allow students to pre-order snacks from anywhere on campus, paying with their student ID number.
· Reduced lines as orders were automated, allowed students to avoid lines and pick up items between classes.
· Received over 200 downloads on the iOS App Store within the first week.

WardTester

· Assisted math teacher with the development of an iOS application to give students a platform containing practice problems.
· Strengthened collaborative skills through working with a team of several other students on the development of the application.

EXPERIENCE

The Sports Hall   June 2019 - September 2019
Bar Tender   *Omaha, NE*

· Provided excellent customer service by catering to the needs of all patrons.
· Learned to handle pressure by serving over 100 customers every fast-paced Saturday night.

The Blackstone Meatball   June 2018 - September 2018
Bar Tender & Server   *Omaha, NE*

· Strengthened interpersonal skills by engaging in conversation with customers to ensure they became repeat customers.
· Refined ability to multi-task by waiting on a maximum of 25 people at the bar while keeping the bar stocked and crafting drinks in a timely manner.
· Developed clear communication skills by talking through each task with team of 4 bartenders.
